SEASON 5

OVER THE WALL

PUSH THE POSSIBILITIES

Masterclass On

POWERING PRODUCTION THROUGH MANUFACTURING

01 | WHY MANUFACTURING MATTERS

A great idea is only the beginning

A product wins only when the consumer promise survives commercial reality.

CONSUMER PROMISE

Desired experience
Quality & performance

COMMERCIAL REALITY

Reliable production
Scale • economics • compliance

DESIRABLE ≠ **MANUFACTURABLE**

Manufacturing is where the idea meets operational truth.

Marico Information classification: Official

01 | WHY MANUFACTURING MATTERS

Idea → Prototype → Commercial Product

GOOD IDEA

Solves a consumer need

→

WORKING PROTOTYPE

Proves the concept works

→

COMMERCIAL PRODUCT

Repeatable • scalable • economical

The gap is not invention. It is manufacturing readiness.

Marico Information classification: Official

01 | WHY MANUFACTURING MATTERS

Five questions every product idea must answer

Can we make it?

FEASIBILITY

Can we make enough?

CAPACITY

Can we make it consistently?

QUALITY

Can we make it profitably?

ECONOMICS

Can we make it responsibly?

RESPONSIBILITY

If one answer is weak, the product idea is not fully ready.

Marico Information classification: Official

02 | TRANSLATING THE IDEA

From product idea to manufacturing brief

The business defines WHAT. Manufacturing determines HOW.

PRODUCT

What are we making?

PACK

How will it be packed?

VOLUME

How much must we produce?

MARKET

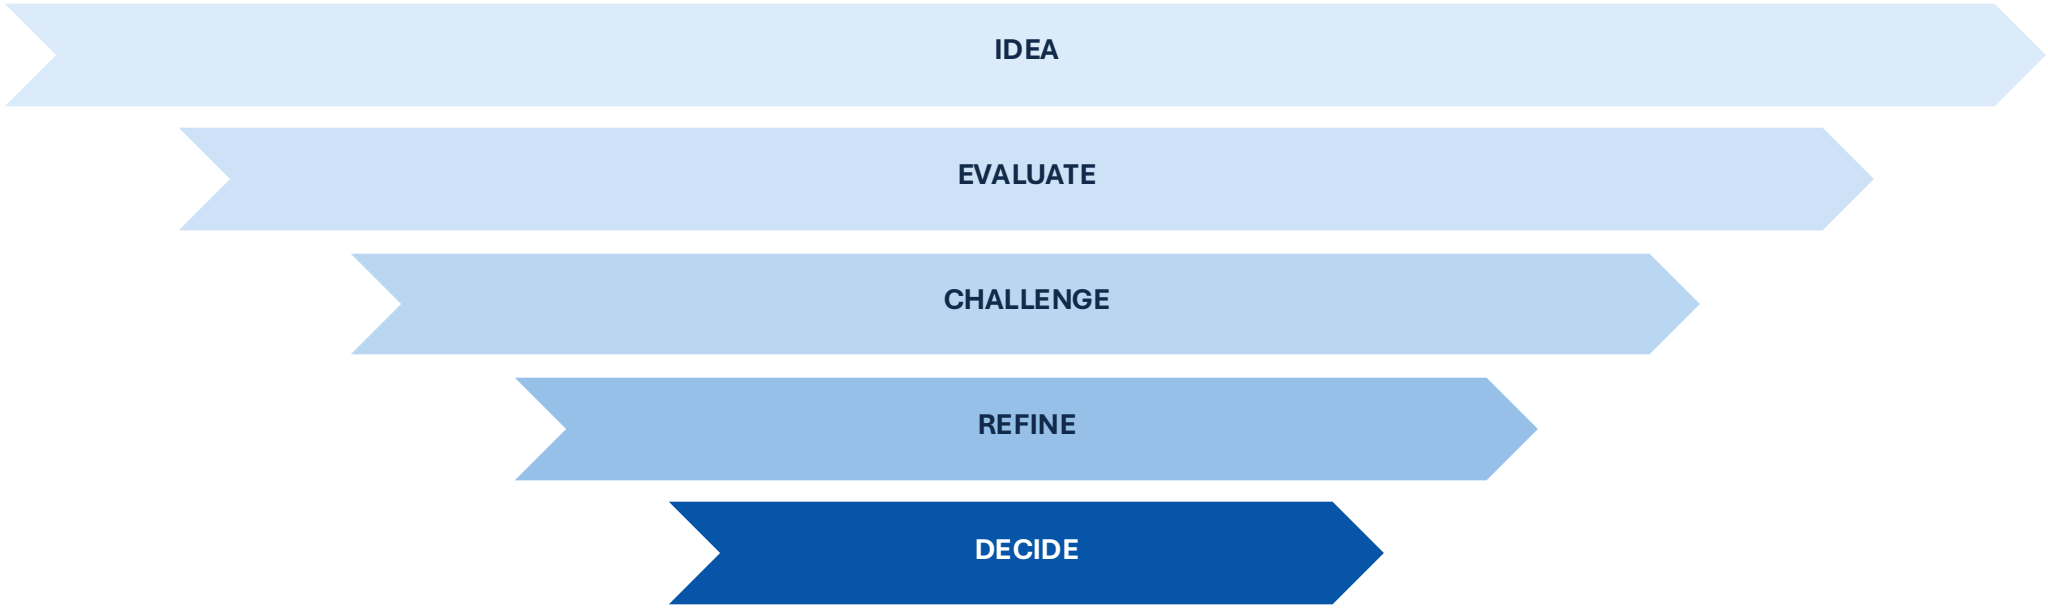

What demand must we support?

CLEAR MANUFACTURING BRIEF

Marico Information classification: Official

The manufacturing feasibility funnel

Pressure-test the idea before committing resources.

8-LENS CHECK

Marico Information classification: Official

03 | TESTING FEASIBILITY

The 8-lens manufacturing check

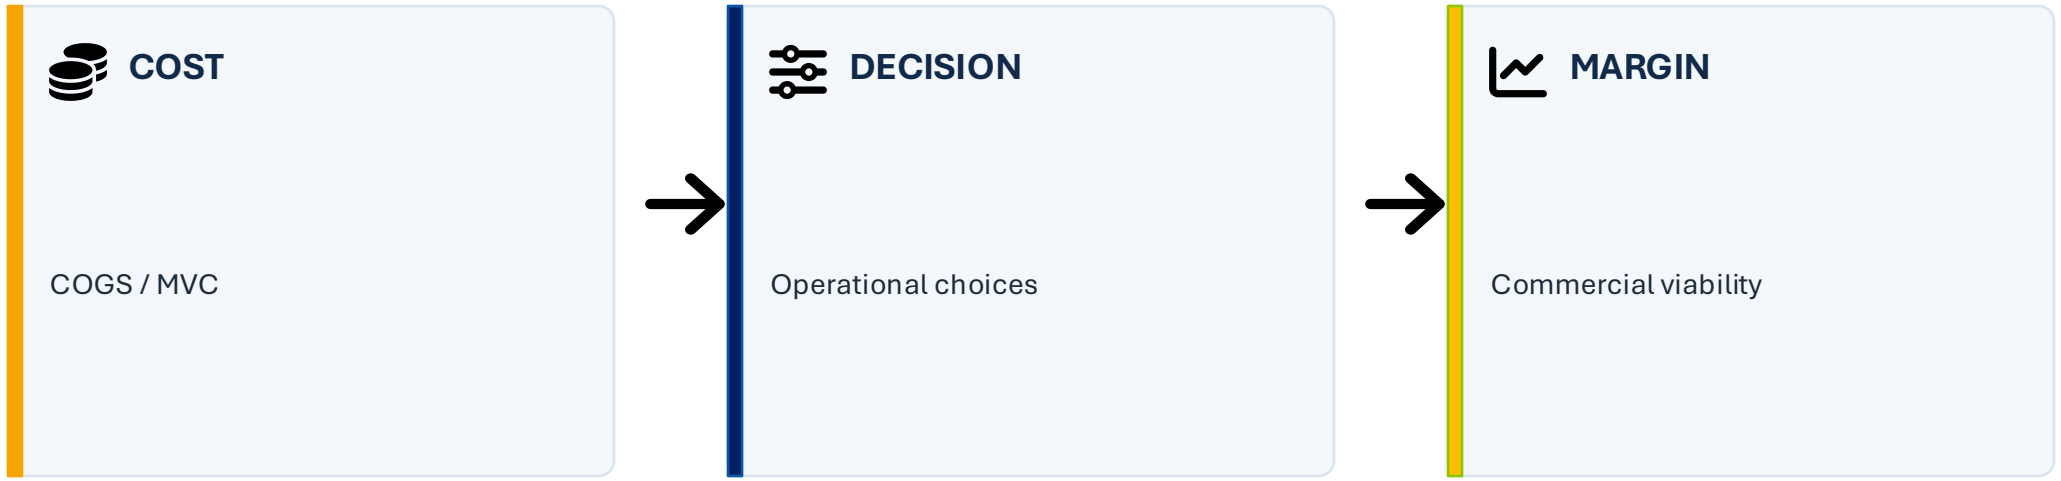

- **Product & Process**
- **Material**
- **Packaging**
- **Capacity**
- **Cost**
- **Quality & Compliance**
- **Supply Chain**
- **Timeline**

One weak lens can change the manufacturing route.

Marico Information classification: Official

Can we make it profitably?

Technical feasibility is not the same as commercial viability.

Does manufacturing protect the required margin?

Marico Information classification: Official

04 | UNDERSTANDING MVC, COST & MARGIN

Look beyond the obvious cost

MISSED COSTS

What gets overlooked?

MOQ

Minimum viable volume

CAPACITY

Can the line support it?

SPACE COST

What footprint does it consume?

Pressure-test → **economics + constraints** → **viable business case**

Marico Information classification: Official

Make, Buy, Modify or Redesign?

MAKE

Use existing capability

BUY

Outsource

MODIFY

Adapt capability

REDESIGN

Change the proposition

Feasible does not automatically mean “make”.

Marico Information classification: Official

05 | CHOOSING THE STRATEGY

A simple manufacturing decision logic

Can existing capability deliver?	→	MAKE
Is outsourcing viable?	→	BUY
Can capability be adapted?	→	MODIFY

IF NOT VIABLE → REDESIGN

Marico Information classification: Official

06 | APPLY THE THINKING

The manufacturing challenge

Read the fictional case. Find the constraints. Make the call.

PROCESS

What could block production?

PACKAGING

What could fail in pack?

COST

What threatens economics?

CAPACITY / MOQ

What limits scale?

YOUR RECOMMENDATION

MAKE | BUY | MODIFY | REDESIGN

Marico Information classification: Official

07 | FINAL READINESS CHECK

Is it FACTORY ready?

F	**A**	**C**	**T**	**O**	**R**	**Y**
FEASIBILITY	**AFFORDABILITY**	**CAPABILITY**	**TIME**	**OPERATION**	**RISK**	**YIELD & SCALABILITY**
Can we make it?	Do the economics work?	Can we deliver it?	Can we meet the timeline?	Can it run effectively?	Are risks manageable?	Can it perform and scale?

FACTORY turns readiness into a disciplined go / resolve / redesign conversation.

Marico Information classification: Official

THE FULL JOURNEY

From big idea to factory reality

Consumer Need > Product Idea > Manufacturing Brief > 8-Lens Check > Cost & Margin > Strategic Route > FACTORY Ready

A winning idea is one we can make

consistently • at scale • profitably • responsibly

Marico Information classification: Official
