Marico Bangladesh Limited

Independent Auditor's Report
and
Audited Financial Statements

As at and for the Nine-month period ended
31 December 2025

INDEPENDENT AUDITOR'S REPORT
To the Shareholders of Marico Bangladesh Limited
Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Marico Bangladesh Limited ("the Company" or "Marico") which comprise the statement of financial position as at 31 December2025, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the period from 01 October 2025 to 31 December 2025 then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give true and fair view of the financial position of the Company as at 31 December 2025, and of its financial performance and its cash flows for three-month period then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and Bangladesh Securities and Exchange Commission (BSEC), and we have fulfilled our ethical responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) Bye Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Key audit matters for the audit of financial statements are as under:

Key audit areas	Our responses
Revenue recognition	
At the period ended 31 December 2025, the Company reported revenue of approximately Tk 5,334 million in the statement of profit or loss and other comprehensive income. Revenue is recognized when the performance obligation is satisfied by transferring goods or services to a customer, either at a point in time or over time. Goods or services are "transferred" when the customer obtains control of it. It is a matter of consideration whether revenue may be misstated due to recognition	We have tested the design and operating effectiveness of key controls focusing on the following: • Segregation of duties in invoice creation and modification; • Approved price list and specified terms of trade in place; • Authorization of credit terms to customers; • Timing of revenue recognition; and

National Office : BTMC Bhaban (6th & 7th Floor), 7-9 Karwan Bazar Commercial Area, Dhaka- 1215, Bangladesh
Chattogram Office : Delwar Bhaban (4th Floor), 104 Agrabad Commercial Area, Chattogram-4100, Bangladesh

of sales transaction before performance obligation being satisfied. Furthermore, revenue is measured at net of trade discounts, returns and allowances. Within a number of the business categories, the estimation of discount recognized based on sales made during the period is material and considered to be complex and judgmental. Therefore, it is a matter of concern that revenue may be misstated as a result of faulty estimations over discounts.	• Calculation of discounts. Our substantive procedures in relation to the revenue recognition comprise the followings: • Observing and evaluating whether proper segregation of duties put in place; • Reviewing samples of sales orders for evidence by the appropriate personnel concerned and application controls for credit limits; • Comparing prices and terms on samples of sales invoices to the authorized price list and terms of trade and also, evaluating application controls for authorized prices and terms; • Obtaining supporting documentation for sales transactions recorded on either side of the period end as well as credit notes issued after the period end date to determine whether revenue was recognized in the correct accounting period; • Assessing the appropriateness of the Company's revenue recognition accounting policies, including those relating to discounts by comparing with applicable accounting standard; • Testing the effectiveness of the Company's controls over the calculation of discounts and appropriate timing of revenue recognition; • Critically assessing manual journals made to revenue to identify unusual or irregular items; and • Finally, assessing the appropriateness and presentation of disclosures as per the relevant accounting standards. Our testing did not identify any issues with regard to revenue recognition.
Refer to the note no. 21 to the financial statements	

Contingent liabilities	
The Company had contingent liabilities of approximately Tk 1,088.9 million as of the reporting date of 31 December 2025 in respect of indirect tax (VAT) and Workers' Profit Participation and Welfare Fund. In this connection, the Company submitted the Writ petition to the Hon'ble High Court and the decision of the High Court is currently pending. In this regard, it has been opined by the external legal advisors (litigation lawyers) of the Company opined that the overall outcome of liabilities of the Company was not possible to determine until final order by the Court is received. In this respect, a significant management's judgement is required in order for assessing the level of provision, and determining the most likely cash outflows from the Company associated with these matters. Therefore, it has been considered as a key audit area.	In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: • Obtaining the lists of all ongoing VAT and WPPF related litigations; • Discussing with the jurisdictions as to the said matters; • Evaluating management's judgement regarding the expected resolution of these matters; • Obtaining confirmations from external legal advisors as well as the internal legal division of the Company; • Analyzing responses in letters independently obtained from the external advisors of the Company on various matters; and • Obtaining and reading the disclosures made in the accompanying financial statements. Our testing did not identify any issues with regard to contingent liabilities.
Refer to the note no. 32 to the financial statements	

Responsibilities of Management and those Charged with Governance for the Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRSs), the Companies Act, 1994, the Securities and Exchange Rules, 2020 and other applicable laws and regulations in Bangladesh and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period. We describe

these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act, 1994 and the Securities and Exchange Rules, 2020 and relevant notifications issued by Bangladesh Securities and Exchange Commission, we also report that:

a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;

b) In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appeared from our examination of these books;

c) The statements of financial position and statements of profit or loss and other comprehensive income along with the annexed notes 1 to 36 dealt with by the report are in agreement with the books of account; and

d) The expenditure incurred was for the purposes of the Company's business.

Marico Bangladesh Limited
Notes to the financial statements
For the period ended 31 December 2025

1. Reporting entity

1.1 Company profile

Marico Bangladesh Limited (hereinafter referred to as "MBL"/"the Company") is a public limited company incorporated on 6 September 1999, vide the certificate of incorporation number C-38527(485)/99 of 1999 in Bangladesh under the Companies Act 1994 and has its registered address at House # 01, Road # 01, Sector # 01, Uttara Model Town, Dhaka-1230. The corporate address of the Company is at The Glass House, Level 6-7, Plot 2, Block SE(B), Gulshan 1, Dhaka 1212. The Company was initially registered as a private limited company and subsequently converted into a public limited company on 21 September 2008. The Company was listed with both Dhaka Stock Exchange (DSE) and Chittagong Stock Exchange (CSE) on 16 September 2009.

1.2 Nature of business

The Company is engaged in manufacturing and marketing of consumer products under the brand name of Parachute, Nihar, Saffola, Hair Code, Livon, Parachute Advanced, Beliphool, Ayurvedic Gold, Extra Care, Parachute Body Lotion, Set-Wet, Just for Baby, Beardo, Medicare safelife and Bio Oil in Bangladesh. The Company started its commercial operation on 30 January 2000. Subsequently, it started its commercial production at Filling unit, Crushing unit and Refinery unit in 2002, 2012 & 2017 respectively. Its manufacturing plants are located at Mouchak, Kaliakoir, Gazipur and Shirirchala, Mahona, Bhabanipur, Gazipur. The Company has invested to set up a new manufacturing plant in Mirsharai Economic Zone (MEZ) and started its commercial operation from 4th July 2023. The Company sells its products through its own distribution channels comprising of sales depots located in Gazipur, Chittagong, Bogra and Jessore.

2. Basis of preparation

2.1 Statement of compliance

In accordance with the requirement of the gazette notification issued by The Financial Reporting Council (FRC) on 22 November 2020, the financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs).

The Company also complied with the requirements of following laws and regulations from various Government bodies:

i. Bangladesh Securities and Exchange Rules 2020;
ii. The Companies Act, 1994;
iii. The Income Tax Act, 2023; and
iv. The Value Added Tax and Supplementary Duty Act, 2012.

The title and format of these financial statements follow the requirements of IFRSs which are to some extent different from the requirement of the Companies Act, 1994. However, such differences are not material and in the view of management, IFRS format gives a better presentation to the shareholders.

Details of the Company's accounting policies including changes during the period, if any, are included in note 7.

2.2 Authorisation for issue

These financial statements are authorised for issue by the Board of Directors in its 135th Board of Directors meeting due on 24 January 2026.

2.3 Reporting period

The financial period of the Company covers period ended 31 December 2025.

2.4 Comparative and reclassification

Comparative information has been disclosed for all numerical, narrative and descriptive information where it is relevant for understanding of the current year financial statements. Comparative figures have been rearranged/reclassified wherever considered necessary, to ensure better comparability with the current year financial statements and to comply with relevant IFRSs.

3. Functional and presentation currency

These financial statements are presented in Bangladeshi Taka (Taka/TK/BDT) which is the Company's functional and presentation currency. All amounts have been rounded off to the nearest integer.

4. Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

(a) Judgements

Information about judgements related to lessee accounting under IFRS 16 made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is described in note 7.04 & 7.17.

(b) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties at 31 December 2025 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next twelve month period is included in the following notes:

Note 8A	Property, plant and equipment
Note 9	Intangible assets
Note 10	Right-of-use assets
Note 13	Inventories
Note 16	Employee benefit obligation
Note 17	Lease liabilities
Note 20	Current tax liabilities
Note 29.2	Deferred tax
Note 32	Contingent liabilities

Notes to the financial statements (continued)

5. Basis of measurement

The financial statements of the Company have been prepared on historical cost basis except for net defined benefit (asset)/liability for which the measurement basis is the fair value of plan assets less the present value of the defined benefit obligation, as explained in note 7.11.

6. Standards issued but not yet effective

IFRS 18 : Presentation and Disclosure in Financial Statements is effective for the periods beginning on or after 1 January 2027 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

7. Significant accounting policies

The Company has consistently (otherwise as stated) applied the following accounting policies to all periods presented in these financial statements.

Note	Particulars
7.01	Foreign currency transactions
7.02	Property, plant and equipment (PPE)
7.03	Intangible assets
7.04	Right of use assets
7.05	Investment Property
7.06	Inventories
7.07	Cash and cash equivalents
7.08	Financial instruments
7.09	Share capital
7.10	Dividend to the equity holders
7.11	Employee benefits
7.12	Accruals
7.13	Provisions
7.14	Income tax
7.15	Revenue
7.16	Finance income and finance cost
7.17	Lease liabilities
7.18	Impairment
7.19	Contingencies
7.20	Earnings per share
7.21	Events after the reporting period

7.01 Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency (BDT) at exchange rates at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at reporting date are re-translated into (BDT) at the exchange rates ruling at the statement of financial position date. Non-monetary assets and liabilities denominated in foreign currencies, stated at historical cost, are translated into (BDT) at the exchange rate ruling at the date of transaction. Foreign exchange differences arising on translation are recognised in profit or loss.

7.02 Property, plant and equipment (PPE)

i) **Recognition and measurement**

Property, plant and equipment (PPE) is recognised as an asset if it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the item can be measured reliably.

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the assets, bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management.

Parts of an item of property, plant and equipment having different useful lives, are accounted for as separate items (major components) of property, plant and equipment.

Notes to the financial statements (continued)

ii) Subsequent cost

Subsequent cost of an item of property, plant and equipment is capitalised only if it is probable that future economic benefits embodied within the item will flow to the Company and its costs can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

iii) Depreciation

No depreciation is charged on land and asset under construction (AuC) as the land has unlimited useful life and AuC has not yet been placed in service /commissioned.

Other items of property, plant and equipment is depreciated on a straight line basis in profit or loss over the estimated useful lives of each item of property, plant and equipment. Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately. Depreciation is charged from the month of acquisition of property, plant and equipment and no depreciation is charged in the month of disposal.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate. The estimated useful lives of the items of property, plant and equipment for the current and comparative year are as follows:

Assets	Depreciation rate
Plant and machinery	5-50%
Buildings	5-33%
Furniture, fixtures and office equipment	10-50%
Computer and IT equipment	20-50%

iv) Derecognition

An asset is derecognised on disposal or when no future economic benefits are expected from its use and disposal. Gains or losses arising from the derecognition of an asset are determined as the difference between net disposal proceeds and the carrying amount of the assets and are recognised in profit or loss.

v) Asset under construction

Asset under construction represents the cost incurred for acquisition and/or construction of items of property, plant and equipment that are not ready for use which is measured at cost. These are transferred to the property, plant and equipment on the completion of the projects.

vi) Capitalisation of borrowing costs

As per the requirements of IAS 23 *Borrowing Costs*, directly attributable borrowing costs are capitalised during construction period for all qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. The borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are those borrowing costs that would have been avoided if the expenditure on the qualifying asset had not been made. All other borrowing costs are recognised in profit or loss in the year in which they are incurred.

7.03 Intangible assets

i) Recognition and measurement

Intangible assets have finite useful lives and are stated at cost less accumulated amortisation and any impairment losses. Intangible assets are recognised in accordance with IAS 38 *Intangible assets*. Intangible assets include cost of acquisition of computer software, intellectual property, copyright and other costs incidental to such capital expenditure.

ii) Subsequent costs

Subsequent costs are capitalised only when they increase the future economic benefits embodied in the specific asset to which they relate. All other costs are recognised in profit or loss as incurred.

iii) Amortisation

Amortisation is recognised in profit or loss on straight line basis over the estimated useful lives of intangible assets from the date they are available for use.

Intangible asset is amortised at the rate of 20% to 50%.

iv) Derecognition

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of intangible assets, measured as the difference between the net disposal proceeds and the carrying amount of the assets, are recognised in profit or loss.

Notes to the financial statements (continued)

7.04 Right of use assets

The Company recognises a right-of-use asset at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liabilities. When a right-of-use asset meets the definition of investment property, it is presented in investment property. The right-of-use asset is initially measured at cost, and depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term, in accordance with the Company's accounting policies.

7.05 Investment Property

Investment property is land or a building (including part of a building) or both that is:

- held to earn rentals or for capital appreciation or both;
- not owner-occupied;
- not used in production or supply of goods and services, or for administration; and
- not held for sale in the ordinary course of business.

Investment property may include investment property that is being redeveloped.

An investment property is measured initially at cost. For subsequent measurement an entity must adopt either the fair value model or the cost model as its accounting policy for all investment properties.

Under the cost model, investment property is measured at cost less accumulated depreciation and any accumulated impairment losses. Fair value is disclosed. Gains and losses on disposal are recognised in profit or loss.

7.06 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on weighted average cost method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Stores and spares and material in transit are measured at cost.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

7.07 Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with maturity of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value, and are used by the company in the management of its short term commitments.

7.08 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Notes to the financial statements (continued)

ii. Classification and subsequent measurement

Financial assets – policy applicable from 1 April 2018

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management; the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets – subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Financial assets includes cash and cash equivalents, trade and other receivables and short term investment.

Notes to the financial statements (continued)

(a) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and all cash deposits with maturities of three months or less that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

(b) Trade and other receivables

Trade and other receivables are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

(c) Short-term investment

Short-term investment consists of fixed deposits with original maturity of more than three months. The Company has the positive intent and ability to hold FDR to maturity, and such financial assets are carried as financial assets at amortised cost. Held-to-maturity financial assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortised cost using the effective interest method, less any impairment losses.

iii. Financial liability

All financial liabilities are recognised initially on the transaction date at which the Company becomes a party to the contractual provisions of the liability.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

Financial liabilities include trade and other payables etc.

(a) Trade and other payables

The Company recognises trade and intercompany payables when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.

(b) Loans and borrowings

The Company derecognises loans and borrowings when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises loans and borrowings when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

7.09 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares, net of any tax effects, are recognised as a deduction from equity.

Paid up capital represents total amount contributed by the shareholders and bonus shares, if any, issued by the Company to the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding up of the Company, ordinary shareholders rank after all other shareholders and creditors and are fully entitled to any residual proceeds of liquidation.

7.10 Dividend to the equity holders

The Company recognises a liability to make cash dividend when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in Bangladesh, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

7.11 Employee benefits

i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Notes to the financial statements (continued)

ii) Defined benefit plan (Gratuity)

The Company operates an unfunded gratuity scheme, provision in respect of which is made annually covering all its eligible employees. This scheme is qualified as defined benefit plan.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognised asset is limited to the total of any unrecognised past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. When the benefits of the plan are improved, the portion of the increased benefit related to past service by employees is recognised in profit and loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in profit and loss. Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised immediately in other comprehensive income. Relevant tax impacts of such remeasurements are also recognised under other comprehensive income.

iii) Leave encashment

The Company operates unfunded leave encashment scheme, i.e. if its employees do not avail leave during his/her service, s/he will be entitled to encash privilege leave at the time of separation from the Company subject to maximum 60 days, at the rate of one month's gross pay for 30 days of privilege leave. This scheme is qualified as other long term employee benefits.

The Company's net obligation in respect of leave encashment scheme is the amount of future benefit that employees have earned in return for their service in the current and prior year and the calculation is performed annually by a qualified actuary.

iv) Workers' profit participation and welfare fund

The Company operates fund for workers as workers' profit participation and welfare fund ("the Fund") and provides 5% of its Profit before contribution to workers participation fund and welfare fund as per provision of the Bangladesh Labour Act 2006. The Company recognises the contribution to the fund as short term employee benefits.

The Fund is governed by Bangladesh Labour Act, 2006 as amended up to 28 September 2015 and the trust deed.

7.12 Accruals

Accruals are liabilities to pay for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amongst due to employees. Accruals are reported as part of trade and other payables.

7.13 Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate thereof can be made.
Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits are required to settle the obligation, the provisions are reversed.

7.14 Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

i) Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Provision for corporate income tax is made following the rate applicable for companies as per Finance Act 2025 i.e 20%.

ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Notes to the financial statements (continued)

7.15 Revenue

The Company applies IFRS 15 Revenue from contracts with customers. The Company recognises as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange for goods or services when (or as) it transfers control to the customer. To achieve that core principle, IFRS 15 establishes a five-step model as follows:

- Identify the contract with a customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Considering the five steps model, the Company recognises revenue when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods are considered as transferred when (or as) the customer obtains control of that goods. Revenue from sale of goods is measured at the fair value of the consideration received or receivable net of returns and allowances, trade discounts, rebates and Value Added Tax (VAT).

7.16 Finance income and finance cost

i) Finance income

Finance income comprises interest income on funds invested and is recognised as it accrues in profit or loss using the effective interest method.

ii) Finance cost

Finance costs comprise interest expense on borrowings and foreign exchange gain or loss.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

7.17 Lease liabilities

The lease liabilities is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The lease liabilities is subsequently increased by the interest cost on the lease liabilities and decreased by lease payment made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

7.18 Impairment

i. Financial assets

The Company recognises loss allowances for ECLs on:

- financial assets measured at amortised cost;
- debt investments measured at FVOCI; and
- contract assets.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

ii) Non-financial assets

The carrying amounts of the Company's non-financial assets (other than inventories) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of impairment loss (if any). Where it is not possible to determine the recoverable amount of an individual asset, the Company estimates the recoverable amount of the Cash Generating Unit (CGU) to which the asset belongs. An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

Impairment losses are recognised in profit or loss. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

7.19 Contingencies

i) Contingent liability

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised in the statement of financial position of the Company. Moreover, contingencies arising from claims, litigations, assessments, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

ii) Contingent asset

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

The Company does not recognise contingent asset.

7.20 Earnings per share

The Company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares. However, dilution of EPS is not applicable for these financial statements as there was no dilutive potential ordinary shares during the relevant years.

7.21 Events after the reporting period

Events after statement of financial position date that provide additional information about the Company's position at the statement of financial position date are reflected in the financial statements. Events after statement of financial position date that are non-adjusting events are disclosed in the notes when material.

7.22 Interim Financial Statements

The interim financial statements have been prepared in accordance with the requirement of International Accounting Standard IAS 34: Interim Financial Reporting, the Companies Act 1994, the Securities and Exchange Rules 2020, Financial Reporting Act 2015, relevant guidelines issued by Bangladesh Securities and Exchange Commission and other applicable laws and regulations in Bangladesh. There is no change in the basis for preparation and accounting policies governing this interim financial statements from the last reporting date. Consequently, no separate note on accounting policy are being provided. Figures for 2024 have been regrouped whenever necessary to facilitate comparison and to comply with relevant IFRS.

8 Property, Plant & Equipment

17. Lease liabilities

See accounting policy in Note 7.17

The Company leases many assets, including properties, warehouses, depots sales offices and land. Total number of lease assets is twenty and average terms of period of lease is four to fifty years. The incremental borrowing rate (IBR) ranges from 2.70% to 13.50%. The factory leases were entered into many years ago as combined leases of land and buildings. The following table sets out a maturity analysis of lease payables, showing the undiscounted lease payments to be paid after the reporting date.

Less than one year	57,614,873	58,511,757
One to two years	41,301,188	44,277,074
Two to three years	40,547,898	35,205,418
Three to four years	11,666,680	36,827,254
Four to five years	6,593,645	-
More than five years	28,655,971	-
	186,380,255	**174,821,504**
Lease liabilities included in the statement of financial position		
Current	57,614,873	58,511,757
Non-current	128,765,382	116,309,747
	186,380,255	**174,821,504**

	31 December 2025 BDT	31 December 2024 BDT
Amounts recognised in profit or loss account		
Interest on lease liabilities	13,886,991	13,586,050

Trade and other payable	(566,785,169)	(2,486,077,540)
Cash generated from operating activities	**4,488,965,291**	**3,186,759,016**
Interest paid	(42,341)	(65,604,623)
Interest received	266,124,263	711,941,214
Income tax paid	(1,296,765,382)	(1,050,130,711)
Net cash flows from operating activities	**3,458,281,831**	**2,782,964,896**

* Net operating cash flow increased due to lower payment to supplier in Q3 FY26.

Notes to the financial statements (continued)

32. Contingent liabilities

The Company has contingent liability of BDT 1,088,900,000 as on 31 December 2025 in respect of indirect tax (VAT) and workers' profit participation & welfare fund. These are being vigorously defended by the Company. The management does not consider that it is appropriate to make provision in respect of any of these claims.

The Company has ordinary letter of credit amount of Taka 163,751,668, Taka 28,521,834 Taka 24,310,125, Taka 65,151,831, Taka 22,116,003 Taka 544,813,385 and Taka 1,149,215 with Standard Chartered Bank, CitiBank, N.A., Commercial Bank of Ceylon, Hongkong and Shanghai Banking Corporation, State Bank of India, BRAC Bank PLC and Dhaka Bank PLC respectively.

Shipping guarantee of Taka 35,508,470 and Taka 90,419,046 with Standard Chartered Bank and Hongkong and Shanghai Banking Corporation.

33. Capital management

For the purpose of the company's capital management, capital includes issued capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

To maintain or adjust capital structure, the Company may adjust the amount of dividend, return on capital, issue new share or obtain long term-debt. All major investment and financing decisions, as a part of its capital management, are evaluated and approved by its Board of Directors.

No changes were made in the objectives, policies or processes for managing capital during the period ended 31 December 2025.

34. Segment information

The Company essentially provides similar products to customers across the country. Business activities in which it engages and the economic environments in which it operates are of similar nature. Its business is not segmented by products or geographical areas and its operating result is viewed as a whole by its management. Hence, segment information is not relevant for the Company.

35. Subsequent events

The Board of Directors of the Company at its 135th meeting on 24 January 2026 recommended interim cash dividend of 475% (Tk. 47.5 per share) for the quarter ended 31 December 2025.

There are no other events identified after the date of the statement of financial position which requires adjustment or disclosure in the accompanying financial statements.

36 Financial instruments - fair values and financial risk management

36.1 Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

31 December 2025

36.2 Financial risk management

The Company management has overall responsibility for the establishment and oversight of the Company's risk management framework. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

36.2.1 Credit risk

Credit risk is the risk of financial loss if a customer or counterpart to a financial instrument fails to meet its contractual obligation which arises principally from the Company's receivables from customers.

The Company makes sales on advance basis i.e. it receives advance from customers prior to sale, so there is no credit risk due to uncollectibility from the customers. However, the Company maintains most of the financial assets with short-term deposits and cash and cash equivalents.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Note	31 December 2025	31 March 2025
Financial assets		**BDT**	**BDT**
Fixed Term Deposits and Tresury Bills	*12.2*	650,495,756	4,791,326,681
Loans to employees	*12*	9,334,423	11,630,861
Trade receivables	*12*	101,473,931	84,858,013
Cash and cash equivalents	*14*	1,208,057,513	3,092,223,180
		1,969,361,622	**7,980,038,735**

36.2 Financial risk management (continued)

36.2.2 Liquidity risk

Liquidity risk is the risk that the Company may encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial assets.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The contractual maturities of financial liabilities of the Company are as follows:

				Contractual cash flows				
	Note	Carrying amount	Expected cash flow	6 months or less	6-12 months	1- 2 years	2- 5 years	More than 5 years
		BDT	BDT	BDT	BDT	BDT	BDT	BDT
31 December 2025								
Trade and other payables	*18*	4,327,139,712	4,327,139,712	4,327,139,712	-	-	-	-
Lease liabilities	*17*	186,380,255	186,380,255	31,049,505	26,565,368	41,301,188	58,808,223	28,655,971
		4,513,519,965	**4,513,519,966**	**4,358,189,217**	**26,565,368**	**41,301,188**	**58,808,223**	**28,655,971**

		5,072,276,029	**5,072,276,028**	**4,922,288,129**	**33,678,153**	**44,277,074**	**72,032,672**	-

Hoda Vasi Chowdhury & Co

36.2.2 Market risk

Market risk is the risk that includes changes in market price, such as foreign exchange rate, interest rates, and equity prices that may affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

i) Currency risk

The Company's exposures to foreign currency risk at 31 December 2025 are as follows:

	31 December 2025	31 December 2024
	USD	USD
Import of goods and services	(25,679,679)	(6,448,945)
Bank balance	450,940	34,748
	(25,228,739)	**(6,414,197)**

The following significant exchange rates have been applied during the period:

	Average rate		Year-end spot rate	
	31 December 2025	31 December 2024	31 December 2025	31 December 2024
Exchange rate (USD/BDT)	122.04	119.55	122.70	120.00

Hoda Vasi Chowdhury & Co

ii) Foreign exchange rate sensitivity analysis

The basis for the sensitivity analysis to measure foreign exchange risk is an aggregate corporate-level currency exposure. The aggregate foreign exchange exposure is composed of all assets and liabilities denominated in foreign currencies.

A 1% change in foreign exchange rates would have increased/(decreased) equity and profits or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates remain constant.

	Profit/(loss)		Equity	
	Strengthening	Weakening	Strengthening	Weakening
	BDT	BDT	BDT	BDT
31 December 2025				
USD (1% movement)	(30,955,663)	30,955,663	(30,955,663)	30,955,663
31 December 2024				
USD (1% movement)	(7,697,036)	7,697,036	(7,697,036)	7,697,036

iii) Interest rate risk

Interest rate risk is the risk that arises due to changes in interest rates. The Company is not exposed to fluctuations in interest rates as it has no floating interest rate bearing financial liability as at the reporting date. The Company has not entered into any agreement involving derivative instrument at the reporting date.

As at 31 December 2025, the interest rate profile of the Company's interest bearing financial instruments was:

	Notes	31 December 2025	31 March 2025
		BDT	BDT
Fixed rate instruments			
Fixed term deposits and Treasury Bills	12.2	650,495,756	4,791,326,681
Variable rate instruments			
Financial assets		-	-
Financial liabilities		-	-
